ACADEMIC APPOINTMENTS

2023–present	Postdoctoral Researcher ETH Zurich, Department of Humanities, Social and Political Sciences Social Brain Sciences Lab, Director: Emily S. Cross
2021–2023	Postdoctoral Research Fellow Macquarie University, Faculty of Medicine, Health and Human Sciences Social Brain in Action Lab, Director: Emily S. Cross

EDUCATION

2022	Macquarie University, Newcastle University, Universities of Groningen & Potsdam PhD in Cognitive Science (joint degree) Thesis: <i>Recognition and cortical haemodynamics of vocal emotions – an fNIRS perspective</i> Committee: David McAlpine, Deniz Baskent, Lindsey van Yper, Robert Luke
2018	Universities of Eastern Finland, Groningen & Potsdam M.Sc. in Clinical Linguistics (joint degree) Thesis: <i>Coarticulation as a synchronic predictor of reading dysfluency</i> Committee: Martijn Wieling, Aude Noiray
2016	University of Ottawa HBA, Major in German Language and Culture, Minor in Linguistics Exchange year at University of Bonn

RESEARCH VISION & TECHNICAL SKILLS

To foster social wellbeing for people of all ages, I **synthesize multi-modal data, merging multi-brain mobile neuroimaging and motion tracking with behavioral and experiential perspectives**. By capturing and integrating these diverse streams, I aim to uncover the underlying mechanisms of thriving social connections and develop evidence-based frameworks to bolster social wellbeing across the lifespan.

My technical skills include:

- **Statistical Analysis** using R (Frequentist & Bayesian approaches), MATLAB & Python for signal processing
- **Mobile neuroimaging** (fNIRS), longitudinal, lab/real-world designs with 1 or more individuals (hyperscanning)
- **Experimental design** and programming (Python, R, MATLAB)

AWARDS

2026	Sex As a Biological Variable (EU-SABV) Short Term Scientific Mission Grant (1000 EUR) International travel award – research stay in Prof Falkner's group at Princeton University.
2025	Swiss Academy of Humanities and Social Sciences (1000 CHF) International conference travel award.
2022	Australasian Society for Social and Affective Neuroscience (AUD 100) National conference travel award.
2019	Conference on Implantable Auditory Prostheses (USD 1000) International conference travel award.
2016–2018	2016 EMCL+ Scholarship for M. Sc. in Clinical Linguistics (2000 EUR) Awarded to cover international tuition fees.

RESEARCH GRANTS

TRADITIONAL OPEN CALLS

- 2026 **SNSF Ambizione – Finalist, invited to interview (750,000 CHF)**
- 2019 **Macquarie University – Postgraduate Research Funding (AUD 6000)**
Awarded for studies using fNIRS to record brain activity evoked by vocal emotions.
- 2018 **IDEALAB Consortium – IDEALAB PhD Fellowship (160,000 EUR)**
Awarded for a 3-year PhD project investigating the behavioural and neural correlates of emotion recognition in natural and degraded speech. Covered experimental work, publication fees, relocation between countries, 2 Australia-Europe travel allotments per year for training and research dissemination.

COMPLEMENTARY OPEN CALLS

- 2023 **Cortivision Pathfinder Program – Neuroimaging equipment loan (valued at 86,000 EUR)**
Awarded for project titled “Probing the development of behavioural and neural synchrony in intergenerational interactions via collaborative art tasks”. Award consisted of loan of two cutting-edge fNIRS devices for 9 months.
- 2023 **Caran D’Ache – Art materials donation (valued at 1000 EUR)**
Award of 30 sets of NEOCOLOR pastels to be used in experimental research involving artmaking.

PUBLICATIONS & PRESENTATIONS

* indicates equal contribution ^ indicates mentored student

PREPRINTS

1. **Moffat** & Cross. (2026). [A longitudinal fNIRS hyperscanning dataset of same generation and intergenerational relationship development and collaboration](#). *bioRxiv*.

INVITED TALKS

1. *Human brains and hearts: How people align during collaboration*. Talk given at Princeton Neuroscience Institute, Princeton University, Sep 2026.
2. *Quantifying connections: Movement and interbrain synchrony as metrics of social connection*. Talk given at Research Unit for Developmental Psychology, University of Vienna, Mar 2026.
3. *Evolving social connections: Three approaches to analysing longitudinal hyperscanning data*. Talk given at "In-Sync, a Hyperscanning Workshop", Inria, Feb 2026.
4. *From strangers to friends: Mapping the development of intergenerational relationships with multi-brain fNIRS*. Talk given at the Faculty of Psychology and Educational Sciences, University of Geneva, Oct 2025.
5. *The beauty of moving together – Using light to understand synchrony between bodies and brains*. Talk given at "Exploring the Spectrum of Light Workshop", Collegium Helvetica, Jun 2025.
6. *From speech processing to complex real-world social interactions using fNIRS*. Talk given to the Evolutionary Neuroscience of Language & Computational Neuroscience of Speech & Hearing research groups, University of Zurich, May 2025.
7. *Hyperscanning: Practicalities & Opportunities*. Talk given at "fNIRS Workshop – Hyperscanning & Developmental Studies", University of Vienna, Sep 2024.

8. *Interpersonal synchrony in movement and the brain*. Talk given to the Precision Psychiatry & Social Physiology Team, CHU Sainte-Justine Research Center, Apr 2024.
9. *Neuroaesthetics and Joint Action Perception*. Talk given to the Behaviour Section of the Department of Humanities, Social and Political Sciences, ETH Zurich. Dec 2023.
10. *Towards an fNIRS paradigm to map emotional prosody processing*. Talk given to the CI Brain Lab, Sunnybrook Health Science Centre, Feb 2020.
11. *Exploring metabolic responses to emotional prosody with fNIRS*. Talk given at “Listen and Learn Workshop”, Macquarie University, Nov 2019.

CONFERENCE TALKS

1. **Moffat**. *Multi-person and multi-session fNIRS as a tool for studying social connections across generations*. Talk given at Society for Social Neuroscience (S4SN) 2026. Montreal, Canada, Aug 2026.
2. **Moffat**, Dumas, Naudszus & Cross. *Interpersonal dynamics of mitigating loneliness using intergenerational creative art-making*. Talk given at European Society for Cognitive and Affective Neuroscience (ESCAN) 2026, Rome, Italy. Jun 2026.
3. **Moffat** & Cross. *Perspectives on embodiment and enjoyment when watching or engaging in dyadic synchrony*. Talk given at International Conference on Music Perception and Cognition (ICMPC) 2025, São Paulo, Brazil. Jul 2025.
4. Cross & **Moffat**. *Exploring behavioural and neural mechanisms of movement synchrony from performers' and observers' perspectives*. Talk given at Joint Action Meeting X 2025, Turin, Italy. Jul 2025.
5. **Moffat**. [*Multi-person fNIRS as a bridge between populations – Insights into intergenerational relationship development*](#). Talk given at Organisation for Human Brain Mapping (OHBM) 2025, Brisbane, Australia, Jun 2025.
6. **Moffat** & Cross. *Rose-tinted embodiment: Mirroring impacts enjoyment, empathy, and cortical activity when observing synchronous movements*. Talk given at fNIRS UK, Colchester, UK, Sep 2023.
7. **Moffat** & Cross. *Observer's traits predict accuracy of synchrony estimation and enjoyment of dyadic mirror-game movements*. Talk given at the 9th Joint Action Meeting, Budapest, Hungary, Jul 2023.
8. **Moffat**, Caruana & Cross. *Cortical correlates of inhibition when observed by synchronised vs. non-synchronised peers*. Talk given at Neuroscience 2022 (SfN), San Diego, USA, Nov 2022.
9. **Moffat**, Baskent, Luke, McAlpine & van Yper. *Pilot: Processing emotional prosody in normal hearing listeners with fNIRS*. Talk given at Conference on Implantable Auditory Prostheses (CIAP), Lake Tahoe, USA, Jul 2019.

CONFERENCE POSTERS

1. **Moffat**, Dumas & Cross. *Intergenerational relationships as seen through hyperscanning*. Zurich Social Connection Workshop, Zurich, Switzerland, Sep 2025.
2. Leisten[^], **Moffat**, Caruana & Cross. *Towards hands-on social robots for accessible, equitable, and sustainable technology-based learning*. Presented at IEEE RO-MAN in Eindhoven, Netherlands, Aug 2025.
3. **Moffat**, Dumas & Cross. *fNIRS insights into intergenerational relationship development*. Presented at Organisation for Human Brain Mapping (OHBM) 2025, Brisbane, Australia, Jun 2025.
4. **Moffat**, Portier, Häuselmann, Dumas & Cross. *Longitudinal insights into motor coordination and neural synchrony within and between generations*. Presented at fNIRS 2024, Birmingham, UK, Sep 2024.
5. **Moffat**, Portier, Häuselmann, Casale & Cross. *Intergenerational social interactions: How do motor and neural synchrony develop over time?*. Presented at Social & Affective Neuroscience Society (SANS), Toronto, Canada, Apr 2024.
6. Casale[^], **Moffat** & Cross. *Arts engagement and embodied experience shape our aesthetic perceptions of socially-intentioned body movements*. Australasian Cognitive Neuroscience Society (ACNS), Sydney, Australia, Nov 2023.
7. Peterson[^], Roberts, **Moffat** & Polito. *The relationship between altered states of consciousness, nature relatedness, and pro-environmental behaviour*. 3rd Psychedelic Symposium UW Madison, Madison, USA, Nov 2023.
8. **Moffat** & Cross. *Quantifying observed motor synchrony: Movement predictability and inter-individual traits predict accuracy*. Presented at Experimental Psychology (EPC), Canberra, Australia, Apr 2023.

9. Casale[^], **Moffat** & Cross. *Art experience enhances enjoyment of dynamic human movement*. Presented at Australian Society for Experimental Psychology (EPC), Canberra, Australia, Apr 2023.
10. **Moffat**, Caruana & Cross. *Cortical activity evoked by synchronised vs. non-synchronised peer observers as detected with fNIRS*. Presented at fNIRS 2022, Boston, USA, Oct 2022.
11. Caruana, **Moffat**, Blanco & Cross. *A welcome social presence: Attentive and responsive robot reading buddies are preferred*. 8th Australasian Society for Social and Affective Neuroscience (AS4SAN) Conference, Sydney, Australia, Jun 2022.
12. **Moffat**, Baskent, Luke, McAlpine & van Yper. *Cortical responses to vocal emotions with attenuated voice pitch variation measured with fNIRS*. Presented at fNIRS 2021 virtual conference, Online, Oct 2021.
13. **Moffat**, Baskent, Luke, McAlpine & van Yper. *Pilot: Mapping emotional prosody in normal hearing listeners with fNIRS*. Presented at Association for Research in Otolaryngology (ARO), San José, USA, Jan 2020.
14. **Moffat**, Baskent, Luke, McAlpine & van Yper. *Pilot: Using fNIRS to explore emotional prosody perception*. Presented at 12th Speech in Noise Workshop (SPIN), Toulouse, France, Jan 2020.

RESEARCH POSITIONS

2018	Laboratory for Oral Language Acquisition (Dr. Aude Noiray) & BabyLAB (Prof Barbara Höhle) <i>Research Assistant</i> , University of Potsdam Topics: Developmental language disorders; Ultrasound tongue imaging; fNIRS
2016	Section for Clinical Cognition Sciences (Prof Ferdinand Binkofski) & Department of Neurology, Stroke/Aphasia Units (Dr. Miriam Abel) <i>Research Assistant</i> , RWTH Aachen University Hospital Topics: TMS; EEG; Language production; Electrical pharyngeal stimulation
2015	School of Rehabilitation Sciences (Dr. Patricia Roberts) <i>Research Assistant</i> , University of Ottawa Topics: Bilingualism; Verbal fluency; Language production

RECENT TRAINING

2026	<i>MR Safety Training</i> , ETH Zurich
2026	<i>Representational Similarity Analysis to Understand How the Brain Represents Information</i> , University of Zurich
2025	<i>Hidden labour and activism in open science</i> , Open Science Retreat, Digital Research Academy
2024	<i>Integrating sustainability in every field</i> , ETH Zurich
2024	<i>Hands-on machine learning with fNIRS using the BenchNIRS Python framework; Cedalion: [...] fNIRS & DOT Data Analysis with Machine Learning Approaches</i> , fNIRS2024 Conference
2024	<i>Machine Learning for Health Data</i> , University of Zurich
2022	<i>Deaf Awareness Training; Mental Health First Aid; Foundations of Supervision</i> , Macquarie University

TEACHING

ETH Zurich

The Cutting Edge of Social Brain Imaging	Fall 2026, Fall 2025, Fall 2024
Mind Meets Machine	Spring 2026, Spring 2025
Learning With and From Robots	Spring 2024, Fall 2023

Macquarie University

Delusions and Disorders of the Mind and Brain (COGS1010)	Fall 2020, Spring 2020, Fall 2019
Introductory Phonetics and Phonology (LING2217)	Spring 2020
Introduction to Psycholinguistics (LING2214)	Fall 2020
Phonological Analysis (LING3390)	Fall 2020, Fall 2019
Language as Evidence (SPHL3300)	Fall 2020

Guest lectures given as part of courses offered at other universities

Human-Machine Interaction, Polytechnic University of Milano	Nov 2025
Psychophysiological Methods in Psychology and Neuroscience, New Bulgarian University	Nov 2024

Other teaching

Visualising data with ggplot2–Preparing figures for publication and outreach, R Ladies Zurich Workshop	Nov 2024
--	----------

SUPERVISION & MENTORSHIP

PhD Dissertations

ETH Zurich:

Tessa Portier [Nov 2024–present]
Courtney Casale [Sep 2024–present]
Tanja Ulrich [Sep 2024–present]
Fenella Symes [Sep 2023–Dec 2024]

Bachelor/Master's Theses

ETH Zurich (BSc):

Greta Bramow [Jul 2024–May 2025]

ETH Zurich (MSc):

Ahmed Eldably [Sep 2025–present]
Anna Mayr [Jan 2026–Jul 2026]
Filiz Kanele [Oct 2025–Jun 2026]
Leia Jekel [Feb 2026–May 2026]
Luca Naudszus [May 2024–May 2025]
Medea Häuselmann [Feb–Aug 2024]
Tessa Portier [Oct 2023–Apr 2024]

Macquarie University (MRes):

Hannah Cahill [Oct 2022–2024]
Abigayle Peterson [Oct 2022–2023]
Courtney Casale [Sep 2022–2023]

Interns

ETH Zurich:

Chantal Nagel [Jul–Oct 2025]
CJ Abeshaus [Jun–Aug 2025]
Alistair Gadola [Feb–March 2024]
Leonie Roos [Jul–Sep 2023]

Macquarie University:

Jonathon Clare [Apr–Jun 2023]
Annika Richter [Jul–Sep 2022]
Sabrina Diep [Feb–May 2022]

PROFESSIONAL SERVICE

SERVICE TO SCIENTIFIC COMMUNITY

Memberships

Jul 2026, TBA
2024–present
2025–present
2025–present
2025–present
2024–present

Nominee for Board of Directors: Society for functional Near-Infrared Spectroscopy (SfNIRS)
Member of Education Committee: Society for functional Near-Infrared Spectroscopy (SfNIRS)
Expert affiliate of Women's Brain Foundation (WBF) Academy
Member of EU-SABV (Sex As Biological Variable) COST Action & Co-leader of Working Group 2 (Clinician and industry collaboration to enhance the translational value of sex-inclusive research)
Member of Swiss Society for Gender Health
Vice President of Departmental Scientific Staff Association (ASST)

Refereeing activities

2026
2023–present
2024, 2026
2023, 2025

Guest Editor: *Oxford Open Neuroscience* special issue titled "Toward a Mechanistic Understanding of Interpersonal Synchrony"

Ad-Hoc Manuscript Review: *Brain & Behavior, Humanities and Social Sciences Communications; Imaging Neuroscience; Journal of Cognitive Neuroscience; NeuroImage; Neuropsychologia; Oxford Open Neuroscience; PLOS One; PNAS; Quarterly Journal of Experimental Psychology; Review of General Psychology; Social Cognitive & Affective Neuroscience; Translational Psychiatry*

External Master's Thesis Examination: Examination of theses submitted for Master's of Clinical Audiology at Macquarie University; Master in Cognitive Science at Sorbonne Université and Université Paris Cité

Federal Grant Review: Reviewer for *National Science Foundation (NSF) Perception, Action, and Cognition Grant; Austrian Science Fund (FWF) ASTRA Awards*

COMMUNITY OUTREACH

2025
2024
2022

A Popularity Contest at the Robotic Petting Zoo, Bits n Bolts Festival, Zurich
Mediated an interactive public art performance, where participants observed robotic vacuums with different personalities and voted for their favorite robots by feeding them colored beads.

Apero: Brain activity during social interaction, ETH Zurich
Hosted an event for participants (122) from a longitudinal intergenerational study, where I presented study results and recorded participants' feedback on the study.

Crestwood Secondary School, Canada | **Camp Aspire,** Macquarie University
Held workshops for Indigenous Australian [Jan 2022] and Canadian [Oct 2022] high school students about measuring and maximizing the social benefits of motor synchrony.

2021, 2022 **LEAP UP University Experience Day | Widening Participation**, Macquarie University
Introduced refugee [May 2021] and Indigenous Australian [Apr 2022] high school students to robotic reading companions and scientific practices used to study child–robot interaction.

MEDIA COVERAGE

- 2026 [When people of different generations create together, brain activity changes](#). Press Release, *PLOS Biology*
